

On Friday afternoon, the 12th day of December, 2014, in Jefferson County Indiana, city of Madison, officers were informed by dispatch that they received a call from Shane Williams, the director of KDH EMS, in reference to one of the EMS workers being struck by a patient in district one.

I, Lt. Napier, responded to KDH and spoke to Shane. Shane said that one of the workers, Angelica M. Northern, w/f dob [REDACTED] was transporting Mark Holt, w/m dob [REDACTED], when he became combative and began taking the security straps off, and when Angelica tried to step in, Mark back handed her in the face.

Angelica explained that Mark initially checked himself in at KDH, and then admitted all he wanted was food and a shower. Mark wanted to be transported to the veterans' hospital, and has used KDH on several occasions in the past. Angelica said that Mark was somewhat combative, even at KDH, and while in route veteran's hospital, Mark decided to take his restraints off. Angelica said that she was attempting to secure the straps when Mark back handed her in the face, which caused her pain.

Angelica filled out a voluntary statement, along with battery affidavit describing what happened.

I had Angelica point out where she was hit, and she pointed to the front of her facial / nose area. I was unable to see any marks on Angelica's face. Angelica said that no one else witnessed the incident.

Mark was arrested for battery and taken to the Jefferson County Jail.
